Jake and the Never Land Pirates Playset

For the characters:

Cutting is intended for grown-ups. Cut out the characters. Do not cut along the dotted lines; this is where you will make the folds. Fold the inner two folds away from you to create the base. Then pinch down on either side of the outer folds and crease. Tape or glue either side of the character to join them together.

For the backdrop:

Cutting is intended for grown-ups. Cut out all the way around the image, being careful to leave in the rudder, the masthead and the mountain top. Cut across the white diagonal lines. Fold at the blue dotted lines and the tan dotted lines to create a contour, then tape or glue the triangles sticking out from the back on either side to hold the shape in place.
